Flour Blends- available in 3 pound box (3-1pound bags in the box), 5 pound bag, 25 pound bag

White Flour Blend- this is our gold standard white flour blend that substitutes cup for cup for wheat flour in a good baking or savory recipe. It is not recommended for making yeast risen breads unless you are very familiar with bread baking. Please be sure not to over mix or over work your doughs or batters, and try the recipes first before making liquid adjustments. I also search google for recipes and substitute the flour with great success. This gives you an unlimited recipe resource. Contains: White rice flour, potato starch, tapioca starch, xanthan gum

Buckwheat flour blend-For those baked goods that have a less delicate flavor, this will provide a lighter and healthier item. By replacing the white rice flour with buckwheat flour, more protein and fiber are added to the diet. This flour also substitutes cup for cup, and again please be sure not to over mix. Contains: Buckwheat flour, potato starch, tapioca starch, xanthan gum

Waffle & Pancake Mix- available in 3 pound box (3-1 pound bags in the box)

Buttermilk waffle mix- this is the standard that we have sold for the last 10 years. It makes an excellent waffle or pancake with unlimited variations. It also makes an excellent oven baked or fired chicken or battered vegetables. Can be made egg free by substituting apple sauce, mashed bananas or buttermilk. Contains: White rice flour, Potato starch, Tapioca Starch, Buttermilk powder, granulated sugar, baking powder, baking soda, xanthan gum

Bread mixes-Available in 2-3 pound boxes with individual packs inside. Some will also be available for special order in 25 pound bags as demand increases. All are egg free except challah if it becomes available.

Italian Bread & Pizza crust mix- This is a very universal mix that can make Italian baguettes, hand formed hotdog and hamburger rolls, pizza crusts and drop donuts (zappoli).

Contains: White Rice flour, potato starch, tapioca starch, xanthan gum, salt, sugar

Buckwheat bread mix- This makes a very nice texture light and airy bread with a healthy choice over all of the white flour breads. Contains: Buckwheat flour, potato starch, tapioca starch, xanthan gum, navy bean flour, sugar, salt

Quinoa bread & soft pretzel mix-Excellent healthy choice for making bread and soft pretzels. This mix makes a great soft bread with a whole grain flavor. Contains: Quinoa flour, buckwheat flour, potato starch, tapioca starch, xanthan gum

Other mixes are developed and may be put into production at a later date based on demand including biscotti, challah bread, and lite n white bread. We also have some of our vendors interested in bread production.
